The same sight line limitations shall apply to any lot within 10 feet from the intersection of a street line with the edge of a driveway pavement or alley line. No tree shall be permitted to remain within such distances of such intersection unless the foliage is maintained at sufficient height to prevent obstruction of the sight line.

No permanent or other structure shall be erected or maintained on said strips. The owners of such lots in this addition, however, shall take their title subject to the rights of the public utilities and to those of the owners of said lots in this addition to said easement herein granted for ingress and egress in, along and through the strips of ground so reserved.
- I. The right to enforce the within provisions, restrictions and covenants by injunction, together with the right to cause the removal by due process of law of any septic tank, absorption bed or structure erected or maintained in violation thereof, is hereby dedicated and reserved to the owners of the several lots in this subdivision, their heirs or assigns, the Department of Metropolitan Development, their successors or assigns, who shall be entitled to such relief, without being required to show any damage of any kind to any such owner or owners by or through any such violation or violation of restriction.
