9.0

GENERAL GUIDELINES

The following guidelines have been established in an attempt to maintain Bridlewood as a desirable neighborhood and to enhance property values within the neighborhood. These guidelines are not intended to be used to harass or unnecessarily inconvenience any Member of the Association.

- 9.1 Every lot in the Development is a residential lot and shall be used exclusively for single family residential purposes. No structures shall be erected, placed, or permitted to remain upon any lot except a single family house and such outbuildings as are usually accessory to a single family house.
- 9.2 No accessory outbuildings shall be erected on any lot prior to the erecting of a single family house on said lot, and in no event shall any such accessory outbuilding or any temporary structure on any lot ever be used as a residence or dwelling or place for human occupancy or habitation.
- 9.3 No house constructed on any lot shall be occupied or used for residential purposes or human habitation until it has been substantially completed.
- 9.4 The finished exterior of every building on any lot in the Development shall be of material other than tar paper, rollbrick siding or any other similar material. No house shall have metal prefabricated flues that extend above the roof line. All driveways must be paved with asphalt or concrete to at least 25 feet from their point of connection with the street.
- 9.5 Every house in the Development must contain a heating plant installed in compliance with the required codes and capable of providing adequate heat for year-round human habitation of the house.
- 9.6 Every building, or improvement to any building, whose construction or placement on any residential lot in the Development is begun shall be completed within six months after the beginning of such construction or placement. No improvement which has been partially or totally been destroyed by fire or otherwise, shall be allowed to remain in such state for more than three months from the time of such destruction or damage.
- 9.7 All structures constructed or placed on any numbered lot in the Development shall be constructed with substantially all new materials, and no used structures shall be relocated or placed on any such lot.

9.8

The owner of any lot in the Development shall at all times maintain the lot and any improvements in such a manner as to prevent the lot or improvements from becoming unsightly; specifically, such owner shall:

- (i) Mow the lot at such times as may be reasonably required in order to prevent the unsightly growth of vegetation.
- (ii) Remove all debris or rubbish.
- (iii) Prevent the existence of any other condition that reasonably tends to detract from or diminish the aesthetic appearance of the Development.
- (iv) Cut down and remove dead trees.
- (v) Keep the exterior of all improvements in such a state of repair or maintenance as to avoid their becoming unsightly.

9.9

In the event that the owner of any lot in the Development shall fail to maintain his lot and any improvements in accordance with the provisions of these guidelines, the Association shall notify the owner in writing of the violation. The owner shall then have two weeks to remove the violation. The Association shall then have the right to enter the lot and repair, mow, clean or perform such other acts as may be reasonably necessary to make such lot and improvements conform to the requirements of these guidelines. Every attempt shall be made to minimize the cost of such work. The cost to the Association shall be added to and become a part of the annual charge to which said lot is subject. Such charge shall be paid in full within thirty days of the date the owner is made aware of the charge. Neither the Association nor any of its agents, employees, or contractors shall be liable for any damage which may result from any such maintenance work performed.

9.10

No outside toilet shall be permitted on any lot in the Development except during a reasonable period of construction.

9.11

No noxious or offensive activities shall be carried on on any lot in the Development, nor shall anything be done on any lot that shall be an unreasonable annoyance or nuisance to any owner of another lot in the Development.

9.12

No signs or advertisements other than signs advertising the lot and house for sale shall be displayed or placed on any lot or structure in the Development for a period of greater than 14 days. Signs advertising the lot and house for sale shall be of the type and size typically seen in the area.

9.13

No animals shall be kept or maintained on any lot in the Development except the usual household pets, and, in such case, such household pets shall be kept reasonably confined so as not to become a nuisance.

9.14

No truck, camper, trailer, boat or similar vehicle shall be stored on any street in the Development, or on any lot in the Development, unless it is parked such that it is not visible to the occupants of other lots in the Development or to the users of any street in the Development. For the purpose of this guideline, an item is considered to be "stored" if it does not have current license plates (if required by an appropriate government agency) or if it is not driven or moved regularly. An item will generally not be considered "stored" until it has been present for thirty days. No temporary house, trailer, tent, garage or other outbuilding shall be placed or erected on any lot with the exception that sheds (or mini-barns) are not required to be permanently anchored. Guidelines for sheds and other outbuildings are found in the Bridlewood Design Guidelines. This section is only intended to prevent the longterm storage of items which could reasonably be considered a nuisance, hazard, or otherwise detrimental to property values in the neighborhood. This section is NOT intended to discourage the parking, in driveways or on the street, of regularly driven vehicles, or short term parking of boats, campers, or other vehicles used by Members or their guests.

9.15

No owner of a lot in the Development shall burn or permit the burning out-of-doors of garbage or other refuse, nor shall any such owner accumulate or permit the accumulation out-of-doors of such refuse on his lot.

9.16

No fuel storage container or ash, trash, rubbish, or garbage receptacle shall be visible from the street at any time, except at the times when refuse collections are being made.

9.17

It shall be the duty of every owner of a lot in the Development to keep any open storm drainage ditch or swale contained on, or adjoining to his property, continuously unobstructed and in good repair.

9.18

The Architectural Control Committee (ACC) is a standing committee. Any improvements made to property in the Development shall be subject to the Bridlewood Design Guidelines, which guidelines shall be managed and interpreted by the ACC.

9.19

Enforcement of these guidelines and the Bridlewood Design Guidelines shall ultimately be the responsibility of the Board of Directors.
