Lots are subject to drainage easements, sewer easements and utility easements, either separately or in any combination of the three, as shown on the plat, which are reserved for the use of lot owners, public utility companies and governmental agencies as follows: (A) Drainage Easements (D.E.) are created to provide paths and courses for area and local storm drainage, either overland or in adequate underground conduit, to serve the needs of the subdivision and adjoining ground and/or public drainage system; and it shall be the individual responsibility of each land owner to maintain the drainage across his or her lot. Under no circumstance shall said easement be blocked in any manner by the construction or reconstruction of any improvement, nor shall any grading restrict, in any manner, the waterflow. Said areas are subject to construction or reconstruction to any extent, necessary to obtain adequate drainage at any time by any governmental authority having jurisdiction over drainage or by the developer of the subdivision. Said easements are for the mutual use and benefits of the owners of all lots in the addition and are a servitude upon such land for the benefit of the owners of other land included within the Venture Subdivision, upstream or downstream, affected by such use. (B) Sewer Easements (S.E.) are created for the use of local governmental agency having jurisdiction over the sanitary waste disposal system designated to serve the addition of the purpose of installation and maintenance of sewers that are a part of said system. Each owner of a lot must connect with any public sanitary sewer available. (C) Utility Easements (U.E.) are created for the use of public utility companies, not including transportation companies, for the installation, maintenance, repair and replacement of mains, ducts, poles, line and wires, meters, and meter boxes. All such easements include the right of reasonable ingress and egress for the exercise of rights, including reading of the meters. No structure, including fences, shall be built on any drainage, sewer or utility easements.
